PROFESSIONAL SUMMARY

Third-year IT (Software Engineering) student at Eduvos with practical full-stack, backend, and networking experience. Eight modules passed with distinction, including an 89% average in Research Design and Methodology. Built a working C2C e-commerce demo, a concurrent backend registration engine, and contributed to an Android group project. Reliable, quick to learn, and comfortable working directly with clients and end users.

EDUCATION

Eduvos (2023 – Present)

Bachelor of Science in Information Technology – Software Engineering (Year 3, final year)

- Class Representative; 8 modules passed with distinction (highest: 89%, Research Design and Methodology)

Sentraal High School, Bloemfontein

Matriculated — Computer Applications Technology and Technical Sciences.

TECHNICAL SKILLS

- Languages: JavaScript, HTML, CSS, Python, SQL, C# (learning)
- Web/Backend: PHP, MySQL • Networking: Cisco Packet Tracer, DHCP, routers/switches
- Security: Kali Linux, Ubuntu, Virtual Machines • OS: Windows, Linux
- Tools: Android Studio, VS Code, Git/GitHub, Microsoft Office, AI-assisted workflows

WORK EXPERIENCE

- Computer Repair Technician (Freelance, ongoing) — SSD replacement, hardware diagnostics, Windows installs via USB
- Airgun Range Instructor (event-based) — taught safe handling and operation of PCP air rifles; ~7 years shooting-sports background
- Waiter — front-of-house food & beverage service
- Catering & Event Assistant (volunteer) — university events

KEY PROJECTS

- TradeShield / "CashCrusader" — full C2C e-commerce demo (HTML, CSS, JS, PHP, MySQL) with listings, buying, and shipment tracking
- Registration Processing Engine — Python backend with concurrent processing, thread-safe seat allocation, zero deadlocks
- AI Career Companion — contributed to architecture, database design, and verification workflow for an Android group app
- Blind Scribe — C# game in development with a friend, hosted on GitHub

CORE COMPETENCIES

- Communication & teaching • Safety-conscious & responsible • Fast learner • Works well under pressure • Team & independent delivery

PERSONAL INTERESTS

- Running (half marathon, unofficial), creative writing, research papers, medical knowledge/paramedic experience

CAREER OBJECTIVE

To contribute to an IT team as a software developer, applying my full-stack and backend experience while continuing to grow technically and professionally.
